

BUSINESS UNIT PROFILE

**COMPASS**  
SAFETY INSTITUTE  
Train Locally, Certify Globally.

COMPASS Safety Institute develops the fire, emergency response, disaster preparedness, occupational safety, and organizational resilience capabilities that help people protect lives when risk becomes real.

**Prepared people.  
Safer communities.  
Stronger readiness.**

GUIDING SAFETY. EMPOWERING RESILIENCE.

**ONE COMPASS DIRECTION**

# One ecosystem for competence, safety, and resilience.

COMPASS Training Center, Inc. serves professionals, companies, government institutions, and communities across maritime, offshore, technical, industrial, and public safety sectors. CSI extends this ecosystem into emergency services, workplace resilience, and community preparedness.

**Vision**

To be the most trusted partner in training, assessment, and compliance, raising standards of competence, safety, and excellence across industries.

**Mission**

To serve professionals, organizations, and communities through quality, globally recognized training, assessment, and compliance services that strengthen capabilities, protect lives, and prepare people for a changing world.

THE CSI ROLE + TRAINING APPROACH

# Turning compliance into readiness.

CSI develops the people, teams, and systems that must act when normal operations are disrupted. Its work moves from formal instruction to practical performance through drills, scenarios, assessment, review, and coaching.

## THE CSI ROLE

- People** Firefighters, emergency responders, safety practitioners, industrial teams, and public-sector personnel.
- Teams** Emergency response groups, facility brigades, incident leaders, drill evaluators, and site safety teams.
- Systems** Preparedness plans, scenario exercises, response procedures, assessment pathways, and readiness improvement cycles.

## TRAINING APPROACH

- 01 Learn** Concepts, standards, roles, risks, and procedures.
- 02 Practice** Equipment handling, drills, simulations, and controlled evolutions.
- 03 Perform** Scenario-based exercises and practical competency assessment.
- 04 Improve** After-action review, coaching, gap analysis, and readiness planning.

From awareness to action, CSI prepares organizations to respond with discipline, coordination, and sound judgment.

**CORE CAPABILITIES**

# A complete readiness portfolio.

CSI organizes its services around the capabilities clients need before, during, and after emergency situations. The result is a tighter link between individual competence, team coordination, and organizational preparedness.

**01 Fire and Rescue Training**

Structural, industrial, aviation, maritime, offshore, facility, and community response.

**02 Hazardous Materials Response**

Recognition, isolation, containment, decontamination, and operational control.

**03 Disaster and Emergency Preparedness**

Risk reduction, drills, continuity thinking, and community readiness.

**04 Occupational Safety and Health**

Hazard recognition, emergency teams, workplace fire safety, and evacuation readiness.

**05 Emergency Leadership**

Incident command, instructors, officers, drill evaluators, and decision makers.

**06 Assessment and Certification Support**

Written and practical assessment, skills evaluation, refresher, and revalidation support.

## 2026 COURSE PORTFOLIO

# CSI COURSE LIST

### NFPA CERTIFICATION PROGRAMS (PRO BOARD)

- NFPA 470 Hazardous Materials Awareness and Operations
- NFPA 1041 Fire and Emergency Service Instructor 1

### CUSTOMIZED

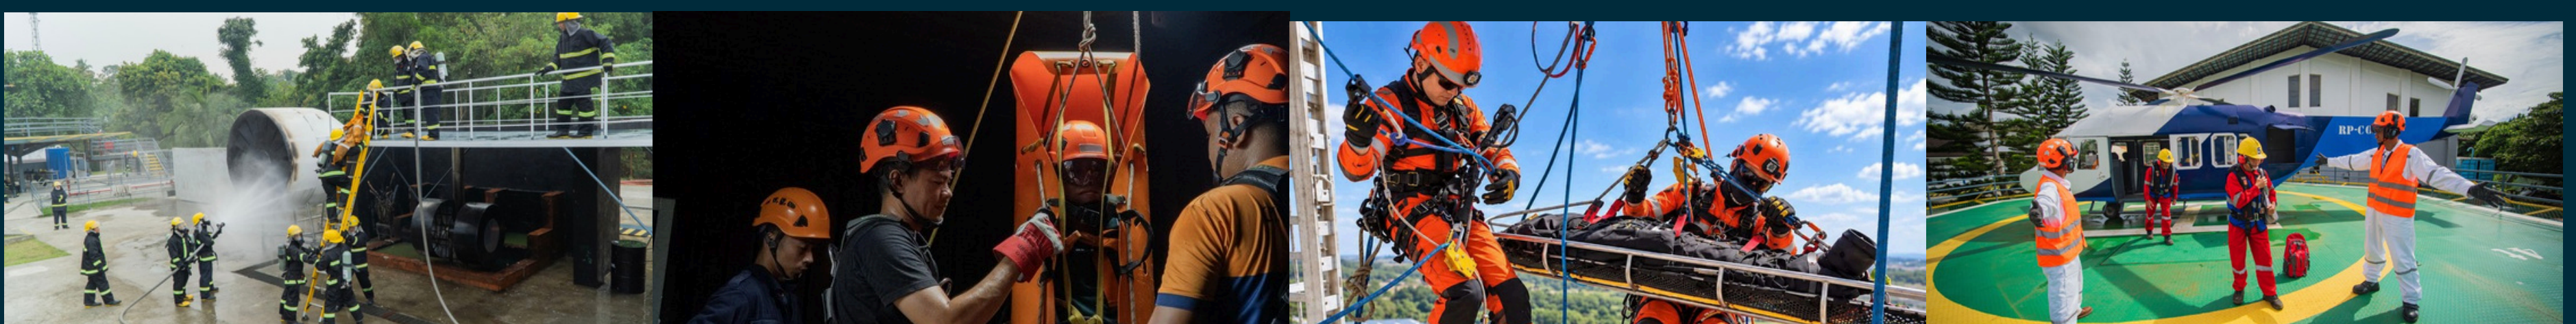

- Gas Measurement (Roll-Dock Avior)

### STO - DOLE

- Mandatory Eight-Hour Safety and Health Training (MESH)
- BOSH for SO1
- BOSH for SO2
- Loss Control Management (LCM)
- Hazard Identification, Risk Assessment, and Control (HIRAC)

### IN-ACCORDANCE-WITH NFPA STANDARD PROGRAMS

- 2-Day Aircraft Rescue and Firefighting, in accordance with NFPA 1003
- 2-Day Firefighter, in accordance with NFPA 1001
- 2-Day Hazardous Materials, in accordance with NFPA 470
- 2-Day Rope Rescue & Confined Space, in accordance with NFPA 1006
- 3-Day Hazardous Materials, in accordance with NFPA 470
- 3-Day Firefighter I, in accordance with NFPA 1001
- 5-Day Hazardous Materials, in accordance with NFPA 470
- 5-Day Collapsed Structure Search and Rescue, in accordance with NFPA 1006
- 5-Day Firefighter I, in accordance with NFPA 1001

**PATHWAYS AND STANDARDS**

# From foundation to leadership.

CSI develops learning pathways that allow responders, safety teams, and organizations to grow from baseline awareness into operational, specialist, instructional, and leadership competence.

**01 Foundation**

Hazardous Materials Awareness and Operations, emergency preparedness, workplace safety, and basic response skills.

**02 Operations**

Firefighter I and II, facility fire brigade, industrial response, confined-space rescue, rope rescue, and team operations.

**03 Specialization**

Airport firefighting, apparatus operations, HazMat Technician, structural collapse, and sector-specific capability.

**04 Leadership**

Fire Service Instructor, Fire Officer, incident command, emergency leadership, and organizational readiness.

Where applicable and subject to the requirements of the relevant certifying or accrediting organization, CSI may coordinate written and practical assessment, skills evaluation, certification testing, continuing development, refresher, and revalidation programs.

**TRAINING FACILITIES**

# A campus designed for practical readiness.

CSI programs are supported by the COMPASS Training and Convention Center in Silang, Cavite. The environment allows classroom, practical, simulation, assessment, and residential training to be completed within one integrated setting.

- Live-fire training areas
- Confined-space operations
- Collapsed structure search and rescue
- Incident command exercises
- Hazardous materials response
- Rope and elevated rescue
- Water-based training
- Classroom and blended learning

Designed to bridge theory, equipment handling, teamwork, judgment, and performance assessment.

**PARTNERSHIP**

# Readiness built around your risks.

CSI works with clients to understand operating environments, hazards, workforce profiles, emergency responsibilities, and readiness gaps. Solutions may be delivered as standard courses, progressive pathways, site-specific programs, exercises, assessments, or advisory engagements.

Fire and emergency services

National and local government

LGUs and DRRMOs

Maritime and offshore

Oil, gas, energy, and utilities

Aviation and airports

Manufacturing and industry

Construction and real estate

Transport and logistics

Healthcare and education

Commercial establishments

Communities and volunteer groups

From preparedness to response, CSI develops the competence, systems, and confidence needed to protect lives and strengthen resilience.
